

SUSTAINABILITY DEVELOPMENT GROWTH

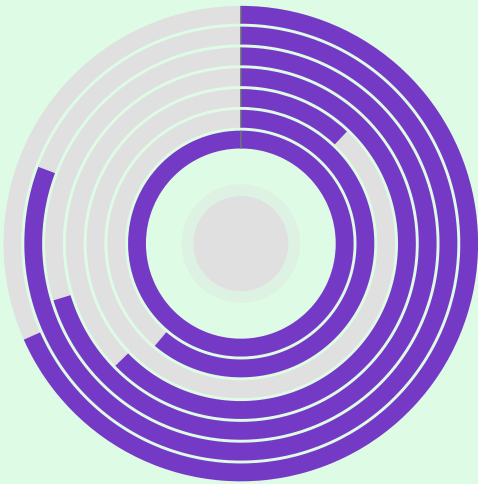

e

Introduction to SDG

Product ID by Market

- Sustainable development is how we must live today and tomorrow, by meeting present needs without compromising the ability of future generations to meet their needs. The survival of our shared planet depends on a more sustainable world.

SDG_Index score and Country

year by sdg_index_score colored by country_code and sized by sdg_index_score

- Sustainability is broken into four dimensions: Environmental, Social, Economic, and Environmental. These are known as the four pillars of sustainability.

SDG Year by Country

year by country colored by country

- Sustainable development practices help resources. The economy relies heavily on which depends on natural resources to provide services
